The Area Assembly Means Business

Lucy Reader, Community Involvement Officer for Wentworth North oversees demolition work. Users of the Swinton Civic Centre will have noticed some changes taking place in the last couple of weeks. The high brick planters separating the car park from the grassed area behind the Civic Centre are being demolished as part of the Housing Market Renewal programme. The trees and shrubs they contained were too big for their position and they obstructed views across the car park. The planters will be replaced by a knee high fence some low planting and a grassed area. We hope this will improve safety as well as being attractive to look at and use. In the meantime we apologise for the short term disruption.

Outreach Project

This is a 3 year project funded through Learning and Skills Council sub-contracted via VC Train and is South Yorkshire wide. [Read More](#)
